

Celebrating 125 Years of Engineering the Future

EESMS

2009 IEEE Workshop on

Environmental, Energy, and Structural Monitoring Systems

Crema, Italy, 25 September 2009

Sponsored by the IEEE Italy Section Systems Council Chapter
With the Technical Co-Sponsorship of the IEEE Italy Section Instrumentation and
Measurement Society Chapter

Organized by Università degli Studi di Milano, Department of Information Technology With the support of ACSU - Associazione Cremasca Studi Universitari

General Chair

Vincenzo Piuri, Università degli Studi di Milano, Italy

Program Chairs

Massimo Lazzaroni, Università degli Studi di Milano, Italy

Dario Petri, University of Trento, Italy

Publicity and Publication Chair

Fabio Scotti, Università degli Studi di Milano, Italy

Local Arrangement Chair

Stefano Ferrari, Università degli Studi di Milano, Italy

Program Committee

Cesare Alippi, Politecnico di Milano, Italy Paolo Arena, University of Catania, Italy Francesco Amigoni, Politecnico di Milano, Italy Salvatore Baglio, University of Catania, Italy Alfredo Cigada, Politecnico di Milano, Italy Giuseppe Conte, Università Politecnica delle Marche, Italy

Vincenzo Di Lecce, Politecnico di Bari, Italy Silvano Donati, Università di Pavia, Italy Gaspare Galati, Università di Roma – Tor Vergata, Italy

Renzo Marchesi, Politecnico di Milano, Italy Maurizio Migliaccio, Università di Napoli – Parthenope, Italy

Nazzareno Pierdicca, Università di Roma – La Sapienza, Italy

Alberto Vallan, Politecnico di Torino, Italy Marialuisa Volta, Università degli Studi di Brescia, Italy

CALL FOR PAPERS

The wide and increasing needs of flexible solutions for environmental, energy, and structural monitoring systems point out the importance of using design methodologies and implementation technologies with high ability of adaptation and evolution. This workshop aims to present and discuss the various technological, methodological and application aspects of complex monitoring systems in the various application areas mentioned above.

Papers are solicited on all aspects of environmental, energy, and structural monitoring systems and the related applications, from the points of view of both theory and practice.

SUBMIT EXTENDED ABSTRACTS OR DRAFT PAPERS BY 30 JUNE 2009

Details for the submission and all information concerning the symposium can be found at the symposium web site at http://eesms2009.dti.unimi.it/ Acceptance/rejection will be emailed by 8 July 2009. The final manuscript is due by 1 September 2009. Papers will be included in the proceedings only if at least one author will register by 1 September 2009 - no exceptions.
